

Name: Nicole Claude, BA

Title: Program Coordinator – Division of Education, Marshfield Clinic Health System (Marshfield Center)

Professional Responsibilities: I am a Program Coordinator in the Division of Education at Marshfield Clinic Health System. In this role, I have the unique opportunity to assist in the development and coordination of a new orientation specifically designed for the onboarding and orientation of experienced Advanced Practice Clinicians (NPs/PAs/CNMs) – the Transition in Practice program. The program is designed to recognize the value and experience APCs bring to Marshfield Clinic Health System (MCHS) and support them as they expand their practice.

Professional Interests: I take professional pride in being a welcoming and knowledgeable point of contact to clinicians joining Marshfield Clinic Health System and supporting them along their journey as they define their scope of practice and for collaborative teams. I also enjoy designing on-brand programming and instructional materials across multiple platforms and promoting life-long learning.

Fun Information About Me: My extracurricular passions include reading (science fiction, fantasy, and dystopian fiction), writing (poems, stories, journaling), and creating and crafting (photography, canvas painting, DIY projects, etc.). I also enjoy singing, show tunes, and swimming. I find my peace of mind either within the pages of a great book or beside the lake. When I'm not doing those things, I also love spending time with my family and playing with my dog, Sisko.
